Policy

Effortlessly develop an organizational policy using our integrated intelligence system.

PDCA4YOU provides a streamlined and effective approach to accelerate certification and standard implementation processes.

Step-by-step Guidance

- 1) Standards are seamlessly transformed into **tangible actions**.
- 2) **Implementation guidelines** according to the standard paragraph
- 3) **AI-generated** policy documents
- 4) **Templates** for required documentation
- 5) **Ongoing assistance** for inquiries
- 6) **Preparation** for the certification assessment

- Standards knowledge training

Management framework

In Command

PDCA4YOU streamlines the implementation of management systems across all organizations. Regardless of industry, company size, or standard, this solution provides universal applicability. As a user, you receive immediate access to a comprehensive management system. In addition to the software, PDCA4YOU grants organizations ongoing support for inquiries related to standard interpretation, implementation, and audit preparation.

A primary instrument

Achieve time savings when acquiring your ISO certification or transitioning to a new version of a standard. It is well-known that implementing a new standard version can be a daunting endeavor.

However, with PDCA4YOU, there is no longer a need to manage multiple disparate tools. You and your colleagues can collaborate on a unified platform, streamlining the process significantly.

Dashboard

The primary Key Performance Indicators (KPIs) and activities are presented on the comprehensive dashboard. This facilitates insight into the advancement of standard implementation and the identification of potential bottlenecks.

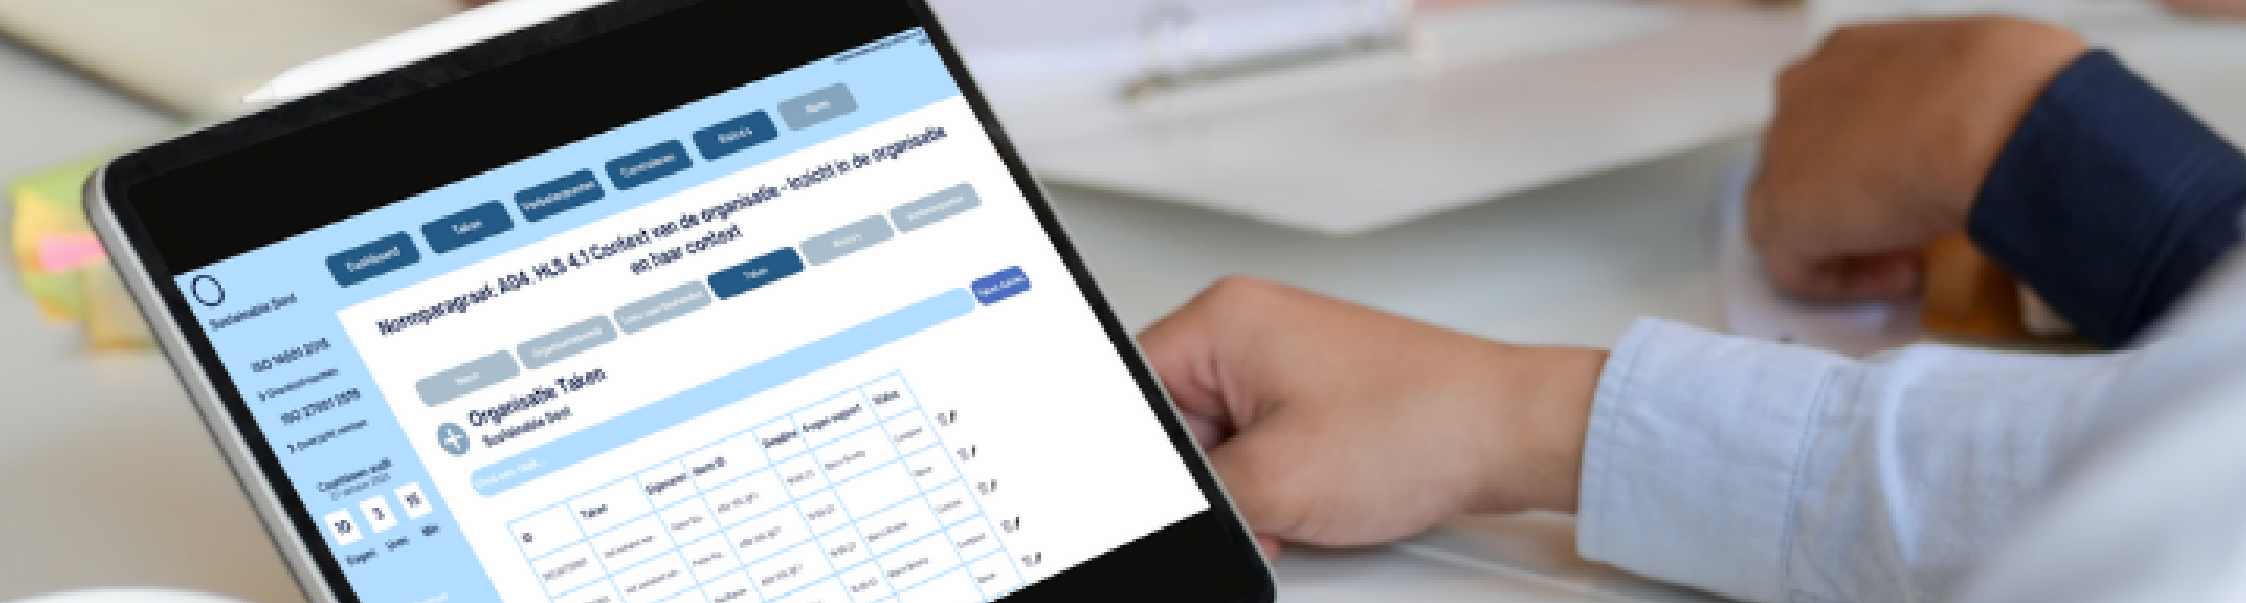

Consistently identifiable

All events in PDCA4YOU are documented and entirely traceable. With an intuitive search functionality, it is straightforward to identify which actions were executed by whom and at what time within the environment.

Consequently, no action remains unobserved, enabling you to retain complete control over the system.

The screenshot displays the 'Sustainable Soof' interface. The top navigation bar includes links for Dashboard, Taken, Verbeterpunten, Controleren, Risico's, and Norm. The left sidebar contains links for ISO 14001 2015, ISO 27001 2015, Countdown audit (27 oktober 2023), and various help and contact links. The main content area shows the 'Normparagraaf: A04. HLS 4.1 Context van de organisatie - Inzicht in de organisatie en haar context'. Below this, the 'Taken' tab is selected, showing a list of tasks. The table below contains the following data:

ID	Taken	Eigenaren	Norm ID	Deadline	4-ogen support	Status	
20230725001	Het behalen van...	Pieter Kla...	A04. HSL §4.1	18-08-23	Marco Bosma	Compleet	
20230725001	Het vaststellen van...	Pieter Kla...	A04. HSL §4.1	18-08-23		Nieuw	
20230725001	Het ontwikkelen...	Ria Mande...	A04. HSL §4.1	18-08-23	Marco Bosma	Controle	
20230725001	Het behalen van...	Pieter Kla...	A04. HSL §4.1	18-08-23	Marco Bosma	Compleet	
20230725001	Het vaststellen van...	Pieter Kla...	A04. HSL §4.1	18-08-23		Nieuw	

Audit Prepared?

PDCA4YOU was created by a seasoned external auditor who encounters the challenges organizations face during audits on a daily basis. The platform not only assists organizations in establishing documentation but also provides guidance in configuring the management system to ensure it is genuinely audit-ready.
